HP OPS Category Manager SAF and Angola

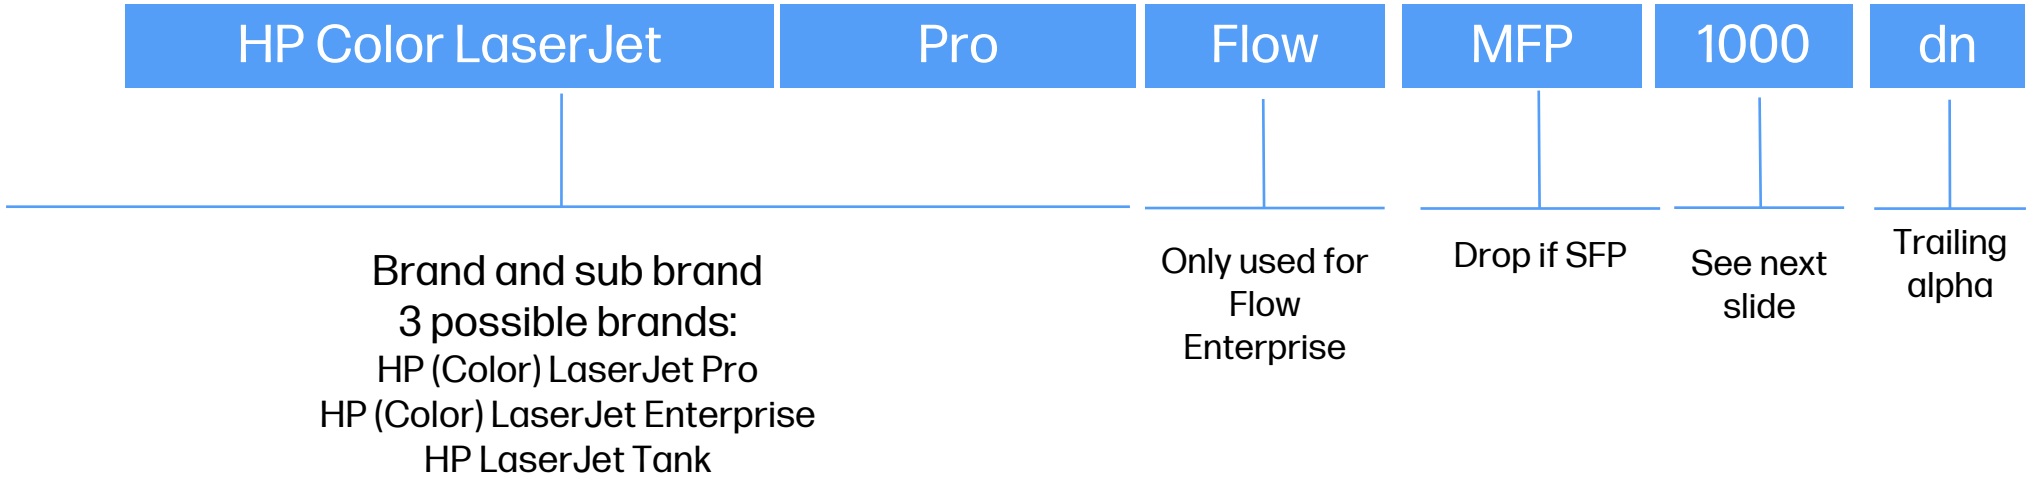
Transactional

New transactional naming structure

All transactional products will have the following changes:

1. Consolidate to 3 brands (HP LaserJet Pro, HP LaserJet Tank, and HP LaserJet Enterprise)
2. Use a 4-digit model naming structure
3. No longer use “M” or any letter in front of model number
4. Will use series numbers 1000-8000 depending on the class

New structure example



Transactional

Number allocation in each transactional series

PRO & LaserJet Tank (1000-4000)

1 0 0 0

Series number 1-4

000-099	Mono SFP
100-199	Mono MFP
200-299	Color SFP
300-399	Color MFP
400-499	Not used
500-599	Tank Mono SFP
600-699	Tank Mono MFP
700-799	
800-899	Not used
900-999	

Enterprise (4500-8500)

4 0 0 0

Series number 4-8

000-099	
100-199	
200-299	Not used
300-399	
400-499	
500-599	Mono SFP
600-699	Mono MFP
700-799	Color SFP
800-899	Color MFP
900-999	Not used

HP Laser transactional product naming at-a-glance

HP Color LaserJet Pro MFP 4003 dw

Descriptor for color	• No Descriptor = mono • Color
Product Brand	**LaserJet:** Laser Technology **Smart Tank Laser:** Laser Technology
Sub-branding	• **Pro:** designed for micro-small business with growing or established networks and minimal management requirements. • **Enterprise:** designed for med-large business with advanced networking, security and doc management requirements. • **LaserJet Tank**: (no sub-brand is used)

Descriptor for functionality	• No Descriptor = single function • MFP • Flow MFP descriptor represents products with flow features
Pro or Smart Tank Product families	• 1000 Personal • 2000 Personal – faster, higher quality • 3000 Small work team low • 4000 Small work team low
Enterprise Product families	• 4500 Small work team low • 5500 Small work team high • 6500 Workgroup • 7500 / 8500 Department
Model number	Model numbers are allocated

Bundle indicator	• **a** Base (no network or duplex) • **c** Channel derivative • **d** Duplex • **e** indicates an HP+ branded product • **f** MFP with network, duplex, fax and (possibly a paper tray) • **h** Hard drive • **n** Network • **s** Incave stapler stacker • **t** extra input device (ex. stand, tray, or HCI) • **u** lower end scanner differentiated from standard scanner bundle • **v** 4.3” touchscreen • **w** Wireless • **x** = SFP with network, duplex, paper tray • **xh** = SFP with x features plus HDD • **x+**= SFP with xh features plus HCI or high cap tray • **z** = Flow MFP • **zs** = Flow with incave stapler stacker • **zw** = Flow with wireless • **z+** = Flow with external finisher • **zf** = Flow with fax

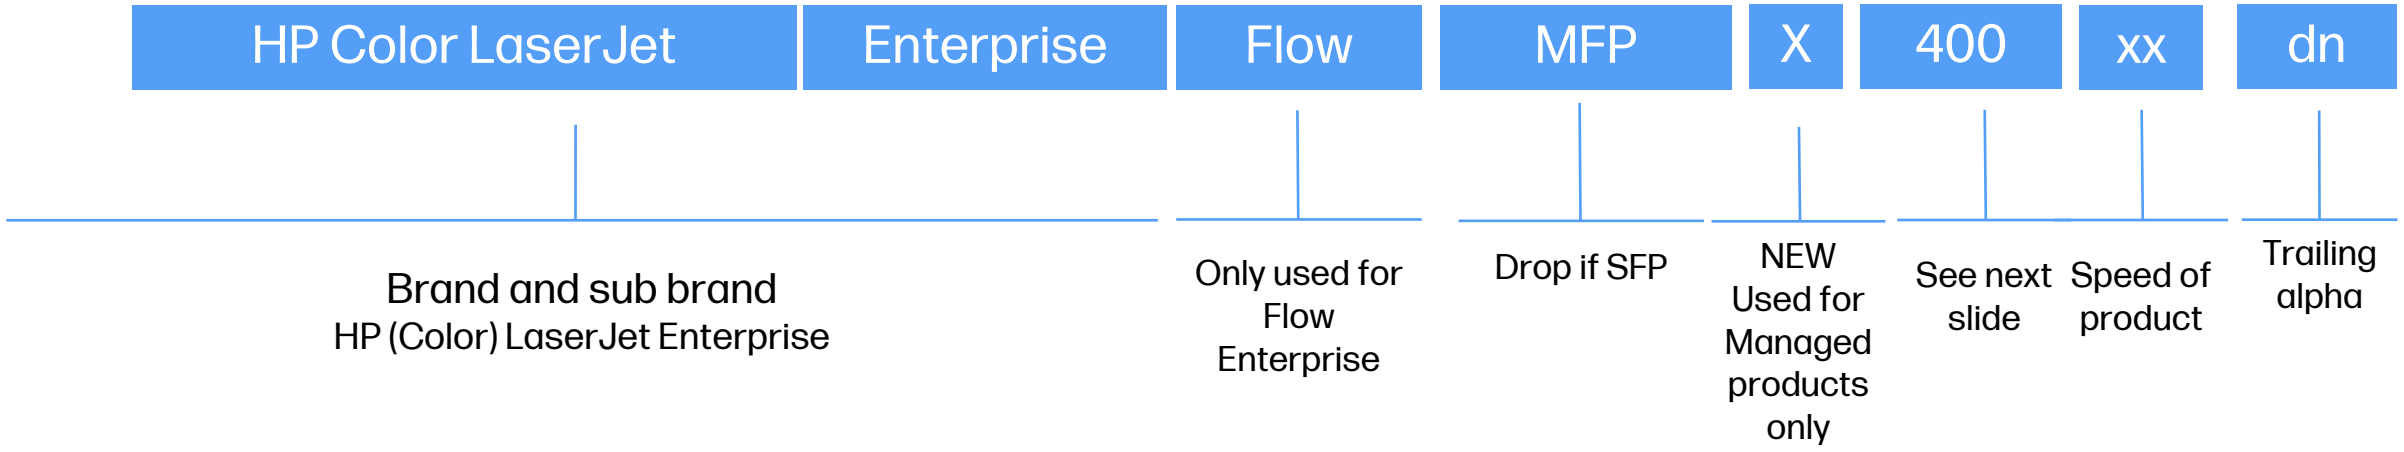
Managed

New managed naming structure

All managed products will have the following changes:

1. Drop the “Managed” brand, replace with Enterprise.
2. Use “X” (**exclusive** MPS channel) in front of Model number (no longer using “E”)
3. Will use series numbers 400-800 depending on class (no change)

New structure example



HP LaserJet Pro

4000 Series

Mono 4000 series - What's new

Target Customer: Optimized for Generalist IT, lightly managed, and work from home
Designed for 3-10 users with AMPV of up to 4k pages/month

Predecessor	New (Current)
HP LaserJet Pro M404	HP LaserJet Pro 4003
HP LaserJet Pro MFP M428	HP LaserJet Pro MFP 4103

Accessory: HP LaserJet Pro Sheet Feeder 550 Pages
(same as Mogami/Teton-D9P29A)

New Experiences for All Customers

New OOBE (Out of Box Experience)

New Hardware & Supplies Innovations

+2 ppm
90% recyclable paper-based packaging

Exclusive benefits for HP+ and Instant Ink subscribers

Print anywhere with private pickup
3 months free printing
Up to 50% savings on toner
1-year additional warranty and dedicated tech support
Forest First printing
Consolidated billing, multi-location

HP Wolf PRO Security for business printers

ENCHANCED SECURITY FOR THE GROWING BUSINESS

HP Wolf Pro Security is a simple endpoint security solution designed for small to mid-sized business that need maximum security coverage without increasing IT workload or disrupting employee productivity. It includes a full suite of threat prevention solutions, including malware.

	Feature	Description
Built-in	Secure boot	Validates the integrity of the boot code at every boot cycle by ensuring the code is HP-signed and genuine
	Firmware Code-Signing Validation	The Code-signing feature uses a cryptographic key and HP's digital signatures to validate that the firmware code is not altered and is authentic since it was distributed. This feature prevents unauthorized distributors to maliciously tamper with the firmware code.
	Write-Protected Memory	Write-protected memory This feature helps protect devices while they are operational and connected to the network—right when most attacks occur. Write-protected memory prevents intruders from introducing malicious code while the printer is running.
	Automatic Firmware updates	Having the latest firmware ensures that you have the latest security updates
	Unique password / device	Each device is shipped from the manufacture with its own unique password
	Original HP Office cartridge security	Original HP cartridges are secure supplies you can trust. By using only Original HP cartridges, you can help protect the integrity of your printer. Security from Every Angle We truly believe office printing system security must be built in – not bolted on.

HW Highlights

with TERRAJET

- ✓ The complete color printer ecosystem to easily manage and use
- ✓ Effortless, secure, sustainable color printing

ENHANCED PRODUCTIVITY

- Groundbreaking performance, with 35 ppm (Ltr)
- Blazing fast duplex printing
- No slowdown on smaller media
- Stunning color prints w/ 7.5% increase in printable colors[1], and HP Premium Print Mode

MANAGEABILITY

- Manage without managing with the HP Smart Admin Dashboard

SECURITY

- Peace of mind with HP Wolf Pro Security

SUSTAINABILITY

- Uses 27% less energy[2], all in a more compact and bold design

Exceptional performance.
Responsibly designed.

Original HP Toner Cartridges with TerraJet technology

Smaller cartridge size[1] = smaller printer size

10%
smaller printer on average

30%
smaller cartridge on average[1]

28%
more printed pages per cartridge size on average[2]

HP Color LaserJet Pro 4000 series

Next generation HP LaserJets with TerraJet Toner Cartridges

Reduce

Responsibly designed

- Reduced energy use[1]
- Less plastic in cartridge[2] and packaging[3]
- Lower carbon footprint[4]

Perform

Outstanding quality printing

- More vibrant, natural-looking images and sharper details[5]
- Consistent color with printer calibrations that take less time[6]
- Faster print speeds

Protect

Security you can trust

- Protected supply-chain integrity[7]
- Tamper-resistant chips, firmware, and packaging to protect your printer and data[8]

No compromise device performance

Advanced copier capabilities in a smaller footprint printer designed for impact so you can do more with less.

- Up to 61/65ppm (A4/letter) print speeds - in color and mono - for ultimate performance.
- Diagnose print quality issues with the industry's first SDS print quality predictive scanner in an A4 printer.
- Reverse-and-retry technology[1] that automatically detects and resolves multi-sheet feed issues.
- HP's fastest processor powers fast copy, scan, OCR and print speeds.[2]
- Consistent user experience and intuitive, tablet-like icons on the 10.1-inch color touchscreen display.[3]
- Targeted fusing technology uses less energy and enables greater speed on multiple media sizes, even for large color print jobs.

1 Available only on 'z' SKUs in 6800 and X677 Series with HP Flow technology
2 HP quad-core processor, available on 6000 and X600 series only and requires enhanced fuser kit, 5000 and X500 can support with optional service part
3 10.1-inch color touchscreen display not available on all devices, see spec tables for availability

Support with evolving office environments

Scalable solutions to meet your needs today and adapt to the future, to always keep pace with busy work groups.

- Connect hundreds of HP and third-party solutions and simplify authentication with card reader support.
- Extend device functionality and performance with expanded options.
- Match color output of any document-device combination with HP Custom Color Manager.
- Flexible configurations – built to order.[1]
- Optimize or upgrade to meet your business needs and your budget.
- Match any office décor with modern designs and the option of five customizable color panels.

1 Some customizations may be applicable to transactional SKUs only.

Shared innovations to standardize and futureproof your devices

Investment protection provides peace of mind and common experiences throughout fleet deployments

- Fleet-wide firmware with FutureSmart 5 and next generation compatibility.
- User interface features common experience across all enterprise devices.
- Common Workpath user experience across all single function and multi-function devices for improved productivity.
- Standardized fleet protection with hardware-based run time intrusion detection – with HP Memory Shield, powered by the new ASIC for additional layers of system hardening against security threats.
- Innovative TerraJet Toner provides improved consistency in performance and quality across a broadening print portfolio.

Protection from security threats

HP Wolf Enterprise Security provides the world's most secure printing.[1]

- HP Sure Start works behind the scenes, during start-up and repairs itself if compromised.
- Run-time intrusion detection with Memory Shield active system identifies anomalies in code execution.
- HP Connection Inspector automatically self-heals if it spots suspicious network connections.
- Whitelisting automatically checks firmware during start-up to determine if it's authentic code.
- Safeguard data stored on the printer—keys, passwords, certificates, and more with HP Trusted Platform Module.
- Thwart potential attacks and take immediate action with instant notification of possible security issues.[2]

1 HP's most advanced embedded security features are available on HP Managed and Enterprise devices with HP FutureSmart firmware 4.5 or above. Claim based on HP review of 2022 published features of competitive in-class printers. Only HP offers a combination of security features to automatically detect, stop, and recover from attacks with a self-healing reboot, in alignment with NIST SP 800-193 guidelines for device cyber resiliency. For a list of compatible products, visit hp.com/go/PrintersThatProtect For more information, visit hp.com/go/PrinterSecurityClaims

2 Instant threat notifications can appear on the device control panel when a potential threat occurs from malicious intent or there is a bug or vulnerability in the firmware code of the device.

TOP INNOVATIONS

- HP's 1st A4 Floor-Standing Stapler/Stacker Finisher
- Industry leading serviceability – completed under ten minutes (80% in less than five minutes)
- Industry's 1st A4 Targeted Fusing Technology
- Industry 1st reverse and retry ADF scanning technology for A4
- Industry 1st reverse and retry ADF scanning technology for A4
- HP's 1st A4 printer portfolio with derivative color panel options
- Industry's fastest A4 Color LaserJet print speeds
- Industry's only In-Line Scan Bar to proactively diagnose print quality issues
- Industry 1st CAC to individual cartridges on A4; now on 5000-Series
